

SİMGE KALMAZ

PHARMACY STUDENT

About Me

During my education life, I took part in various student clubs and volunteer work. Thanks to the courses I took and the projects I completed, I gained advanced knowledge in my field and I had the opportunity to improve myself thanks to the internships I took part in. I love doing research and working in a laboratory environment. In my daily life, I like to read books, discover new places and spend time with my friends.
